About Sitryx

Sitryx is a biopharmaceutical company focused on regulating cell metabolism to develop disease-modifying therapeutics in immuno-oncology and immuno-inflammation. Sitryx's proprietary science is led by a highly experienced management team and supported by world class academic founders. Sitryx was founded by six world-leading researchers in the field of immunology and metabolism;

Houman Ashrafian, Luke O'Neill, Jonathan Powell, Jeff Rathmell, Michael Rosenblum and Paul Peter Tak. Together they have published more than 1,000 papers in the field, making multiple key breakthroughs in our understanding of how critical energetic status is to the behavior of immune cells and in the broader field of immunology. In 2018, Sitryx raised \$30 million Series A funding from an international syndicate of specialist investors including SV Health Investors, Sofinnova Partners, Longwood Fund and GSK. In 2020, Sitryx formed an exclusive global licensing and research collaboration with Eli Lilly and Company. Lilly also became an investor in the company. The company has a pipeline of projects at multiple stages of drug discovery. Sitryx is headquartered in Oxford, UK. For more information, please visit www.sitryx.com.
